

What is Claimed is:

- [c1] 1.A structure for attaching a fabric sheet to a vehicle body in which the fabric sheet is attached to the vehicle body by inserting a threaded fastener through a hole of the fabric sheet and screwing the fastener into a fastening hole formed in the vehicle body, wherein the structure comprises:
a spacer positioned in the hole of the sheet, the spacer having a cylindrical portion inserted in the hole, the diameter of the cylindrical portion being smaller than the inner diameter of the hole,
wherein the threaded fastener is inserted into the cylindrical portion, and
wherein an end of the spacer is in contact with the vehicle body and another end of the spacer is provided with a flange having a diameter larger than the inner diameter of the hole.
- [c2] 2.The structure of claim 1, wherein the flange is integrally formed with the cylindrical portion.
- [c3] 3.The structure of claim 1, wherein the spacer includes a spacer rear body to be in contact with the vehicle body and a spacer front body to be connected with the spacer rear body,
wherein the spacer front body includes the flange, and the spacer rear body includes an enlarged portion larger than the hole, the enlarged portion being located between the vehicle body and the fabric sheet.
- [c4] 4.The structure of claim 3, wherein the spacer includes a tacking member for tacking the spacer rear body to the vehicle body so that the tacking member engages with an engaging hole in the vehicle body..
- [c5] 5.The structure of claim 1, wherein the opening in the fabric sheet is located in an edge portion of an airbag that is intended to protect a vehicle occupant's head.
